AD FONTES ACADEMY
2021 - 2022 SCHOOL PROFILE

Overview
Ad Fontes Academy (AFA) is a coed, independent, liberal arts, K-12 day school founded in 1996 upon classical Christian educational methods. Ad Fontes is accredited by the Association of Classical Christian Schools (ACCS), which is a member of the Virginia Council of Private Education (VCPE).

Admissions Criteria
Selective admission is based on academic records, third-party academic testing, and a personal interview. Ad Fontes Academy does not discriminate on the basis of gender, race, national or ethnic origin in the admission of students, financial aid or employment policies, or in any of its educational programs.

Faculty
Fourteen faculty teach in the Upper School with 36% holding academic degrees at the Masters level or above. All teachers must model rhetorical and academic excellence and demonstrate a passion for their subjects and for teaching students. The student/faculty ratio is 8:1.

Enrollment
The total enrollment for the 2021-2022 school year is 215, kindergarten through twelfth grade. The Upper School enrollment is 86 students, 7 of whom are seniors.

House System
All Upper School students participate in one of four houses (Athens, Atlantis, Ilium, Rome) to establish strong, supportive relationships and camaraderie between the grade levels, to develop student leadership skills, and to shape school culture. House Heads are seniors and juniors nominated and selected by students to work closely with school administration to lead the Upper School. Activities include weekly house meetings, house competitions, service projects, and social events.

High School Curriculum
The Ad Fontes Academy curriculum is a rigorous college preparatory liberal arts and sciences program. All courses are taught at the honors or advanced level. AFA students are equipped to clearly and persuasively articulate the knowledge they acquire across the curriculum.

Ad Fontes students engage with classic texts and original source documents in classrooms of active discussion and debate using the Harkness Method. This develops skills in research, close reading, critical writing and historical analysis. The Ad Fontes humanities sequence consists of a chronological study of western literature and history from antiquity to modern Europe and America.

Ad Fontes teaches our students that they are both inheritors and responsible members of historical, social, and cultural contexts much greater than themselves. As part of this process, our curriculum relies heavily on a wide range of original source materials and whole texts.

Students, for example, learn geometry directly from Euclid, philosophy from Plato, and literature from Sophocles, while also encountering plenty of contemporary scholars and artists. This juxtaposition helps our learners develop the logic, critical thinking, and perseverance necessary to engage thoughtfully with the diverse world around them. Teachers regularly present “Outside the Box” awards to students who bring new insight to a question or problem.

Ad Fontes provides students with rigorous preparation in critical thinking, mathematics and the sciences. As a foundation, all students complete a full-year course in Logic. Our goal is to shape students who think as mathematicians and scientists. The Advanced Math and Science courses are highly interactive, as students solve challenging problems and create beautiful, convincing mathematical arguments.

Ad Fontes students study Latin to strengthen their language, learning and thinking skills through a rigorous grammar program which provides a strong foundation for reading Latin literature and further language study, including French.

Junior and Senior Thesis
In every field and endeavor, the most effective communicators rise to leadership. Thus, we emphasize writing and speaking throughout the Ad Fontes experience, including four years of high school rhetoric courses. Junior year, students study the five canons of rhetoric and the six parts of discourse, develop research and formal writing skills, and deliver multiple speeches. The capstone of an AFA education is the Senior Thesis, wherein each senior writes an original, relevant, and debatable 15-20 page thesis and presents an oral defense, consisting of a 15-minute oral presentation and 20-minute defense before a faculty and topic expert panel.

Sample of Recent Senior Thesis Topics
- On the Necessity for American Arbitration in the South China Sea
